## About This Content

Purchasing Raelynn will permanently unlock this character in Awesomenauts. The character can also be purchased with Awesomepoints in-game.

Raelynn is an accessible harasser who uses a laser sniper to deal heavy damage and deploys time rifts that slow enemies. She comes equipped with the following abilities:

- Take aim and fire a powerful and very long-ranged shot, that pierces through enemies. Fire after the beep.
- Deploy a vertical rift that slows time.
- Fire your protoblaster: 'Cuddles'.

*Raelynn loves big guns. After highschool, she went straight into the E.L.F. army to fight against the invading robots, just before the first AI war.*

*She was trained by the best and excelled in long range weaponry. Within a year she was given the honor of joining an elite squad called the SkyHawks, where she met the love of her life: her Pulserifle "Cuddles".*

*For years they did covert missions together as a team to disrupt robot production and steal robot technologies. They were feared by*

---

*all robots (well...the ones with emo-chips).*

*Until that one deep space mission to AI station 404 in the year 3009, where she ran into a robot ambush, and "Cuddles" was brutally taken away from her. Raelynn was put into cryo stasis. Decades passed until a small mercenary team found her hidden on the planet. There she was rejoined with "Cuddles" and many warm 'hugs' were given that day to all robots on 404.*
